Reversible Type Sucker Rod Socket

DESCRIPTION	PART NUMBER	
	2"	2 1/2"
Outside Diameter	1 29/32"	2 5/16"
Components		
① Bowl	552-521-000	552-522-200
② Guide, Spring	552-705-000	552-705-100
③ Ring, Control	552-524-400	552-525-100
④ Slips, Reversible		
1 1/4" to 1 1/2" Couplings 5/8" and 3/4" Rods	552-520-500	
1 1/2" to 1 5/8" Couplings 3/4" and 7/8" Rods		552-521-600
⑤ Spring	552-521-200	552-522-300
⑥ Top (With 3/4" API pin)	552-520-900	552-522-000
Accessories		
Slips, Multiple (For worn boxes and pins)	552-520-600	552-521-800
Slips, Polished Rod		
1 1/8" and 1 1/4"	552-521-300	552-522-400
1 1/4" and 1 1/2"		552-522-500
Slips, Reversible		
1 1/4" to 1 1/2" Couplings 3/4" and 7/8" Rods	552-520-530	
1 1/2" to 1 5/8" Couplings 5/8" and 3/4" Rods		552-521-500
1 1/2" to 1 5/8" Couplings 7/8" and 1" Rods		552-521-700

The Trico Reversible Type Sucker Rod Socket is a combination slip socket for fishing sucker rods, polished rods and sucker rod couplings (except surface-hardened couplings). Each socket is fitted with a reversible slip unit which has reverse wickers in each end. When fishing for couplings, the large ID end of the slips should be run in the down position. The slip unit should be reversed when fishing for rods. The large ID end of the slips will catch two sizes of couplings, while the opposite end will catch two sizes of rods. Multiple slips are available to catch worn boxes and pins. They will not catch rods.
